33 residential yard cleanups have been conducted thus far in calendar year 2006.

117 properties have been sampled thus far in calendar year 2006. We are waiting for the results to determine which, if any, properties require cleanup.

As of 4/11/06, residential yard cleanups have been suspended. At this time, the field teams are focusing on lead based paint abatement.

Residential yard cleanups will resume in Aug/Sept. 2006

Russ

I don't have any "good" numbers beyond what's above.
